About Us

We are an ISO 9001:2015 certified company committed to delivering innovative, durable, and high-quality piping solutions tailored to meet the diverse needs of industries and households. As specialists in HDPE, PVC, CPVC, MDPE, SWR, Suction Pipes and Sprinkler Pipes, we also provide a comprehensive range of accessories, ensuring seamless and efficient operations across various applications.

With over 25 years of expertise, we have emerged as a trusted one-stop solution for HDPE Pipes, PVC Pipes, and Irrigation Systems. Our products are manufactured using advanced machinery and premium raw materials sourced from certified vendors, ensuring compliance with international quality standards.

Our state-of-the-art manufacturing processes, stringent quality controls, and eco-friendly practices reflect our unwavering commitment to excellence. Whether for agricultural, industrial, or residential use, our solutions are engineered to deliver superior performance and reliability. Choose Trutuf Pipes-because your success flows through us.

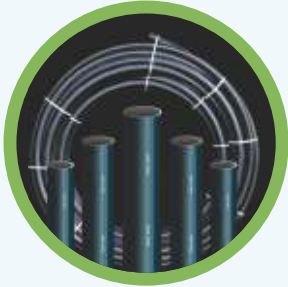

Applications of HDPE Pipes:

1. Water Supply
2. Irrigation Systems
3. Sewage Disposal
4. Gas Distribution
5. Industrial Effluents
6. Cable Ducting
7. Mining Operations
8. Firefighting Systems

Why TRUTUF HDPE Pipes

- Manufactured from 100% virgin raw materials (PE 63, PE80 & PE100).
- It does not impart any odour or toxicity to the liquid that is being transported.
- HDPE pipes possess advanced properties like resistant to UV & corrosion, non-toxic, inert to chemicals, low thermal conductivity and high electric resistance.
- HDPE is flexible in nature and has excellent abrasion & weather resistance.
- Internal surface is so smooth which enables higher flow & lower frictional losses.

Our Products :-

HDPE PIPES & COILS

PVC PIPES & FITTINGS

CPVC PIPES & FITTINGS

MDPE PIPES

SPRINKLER PIPES & ACCESORIES

SUCTION PIPES

Key Features

- Manufactured from 100% virgin raw material.
- Outstanding flexibility and crush resistance
- Excellent SCGR (Slow Crack Growth Resistance) properties
- Superior hydrostatic strength and durability for long life
- Lightweight and highly flexible for faster & easier installations
- Excellent chemical resistance
- Fusion welded joining provides leak-free monolithic pipe systems
- Anti-microbial properties reduces bacterial growth
- Excellent flow characteristics
 - UV Resistant
- Low thermal & electrical conductivity
 - Easy to maintain
- Smooth internal & external surface

Applications

- Potable water supply
- Drip & sprinkler irrigation
- Sewerage/drainage
- Chemical industries
- Gas transmission
- Bore wells
- Industrial effluents
- House service connections
